- ✓ Gold Seal Exams.

What the Construction Association of New Brunswick Offers (CANB)

✓ Canadian Construction Association (CCA) is the national voice for the Canadian construction industry representing companies working in all four segments of non-residential construction:

Industrial construction (i.e. warehouses, manufacturing plants, oil refineries, smelters, lumber and pulp and paper mills, hydro-electric plant and water treatment facilities);

Institutional construction (i.e. schools, hospitals, colleges and universities, as well as other government facilities used to deliver public services);

Commercial construction (i.e. banks, restaurants, shopping malls, as well as office buildings and condominiums); and

Civil engineering construction (i.e. dams, highways, roads, public transit systems, and the underground infrastructure necessary to remove sewage and deliver water, electricity and telecommunications to our homes and businesses).

✓ Communications - CCA helps you keep on top of industry developments with its communications.

✓ CCA awards— CCA helps shine light on the extraordinary accomplishments of the people, companies and associations that make up the construction industry in Canada.

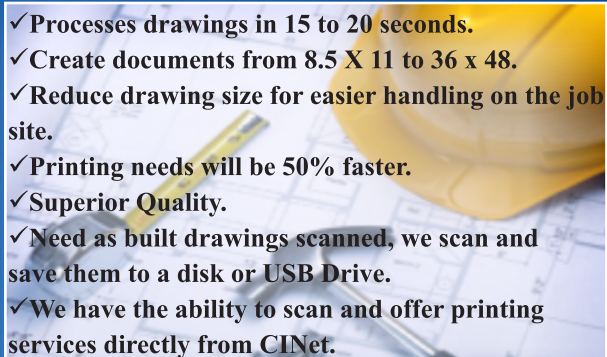

✓ Standard documents – CCA helps you simplify the way you conduct business and save time and money with its standard contract documents that are up-to-date, easy to understand and familiar to all parties.

✓ Industry guides – CCA helps you run your business better by providing useful information on a number of topics like project financing, insurance, solid waste reduction, improving cash flow, environmental management planning, exporting to the United States, banking, etc.

Construction Information Network (CINet)

- ✓ Up to date listing of all projects in the plans rooms.
- ✓ You can register for projects and receive automatic notification of addendums and extensions by email.
- ✓ View and print all specs & addenda on line.
- ✓ View results of low tenders and awards.
- ✓ List of plan takers are available.
- ✓ Special Announcements.
- ✓ Private plans room.

Xerox Copier Document System

- 
- ✓ Processes drawings in 15 to 20 seconds.
 - ✓ Create documents from 8.5 X 11 to 36 x 48.
 - ✓ Reduce drawing size for easier handling on the job site.
 - ✓ Printing needs will be 50% faster.
 - ✓ Superior Quality.
 - ✓ Need as built drawings scanned, we scan and save them to a disk or USB Drive.
 - ✓ We have the ability to scan and offer printing services directly from CINet.
